PROGRAM

The exciting program for IMA 2018 will include presentations on a variety of topics including:

- Applied mineralogy, materials science
- Clay science
- Mineralogy at high pressure and temperature
- Economic geology/mineralogy
- Environmental mineralogy/geochemistry/biomineralogy
- General and specific mineralogy
- Geochemistry and Petrology
- Geochronology
- Methods and applications
- Mineralogical crystallography
- Historical mineralogy and mineral museums
- Planetary mineralogy
- Synchrotron/neutron science

Other features of the program will include daily plenary lectures, poster presentations and panel discussions on topical issues related to mineralogy.

KEYNOTE SPEAKERS

PAUL AGNEW
Australia

JILL BANFIELD
United States of America

JANICE BISHOP
United States of America

PETER BURNS
United States of America

KATHRYN GOODENOUGH
United Kingdom

SERGEY V. KRIVOVICHEV
Russia

JURAJ MAJZLAN
Germany

SPONSOR OR EXHIBIT AT IMA 2018

IMA 2018's presence in Australia is a rare opportunity for our Australasian and Asia-Pacific colleagues to showcase what the region offers to the world community, both in terms of mineralogical research, our culture and Australia's physical beauty and scientific interest. We are seeking local, regional and international industry supporters to join us in delivering what will be a first-class meeting bringing together a wide cross-section of mineralogists and geoscience-related attendees in one place at one time. We offer our sponsors new levels of engagement with this influential audience.
